DETAILED ACTION

Claim Objections

1. Claims 1-24 are objected to because of the following informalities: It is strongly suggested that all pending claims include the terminology "computer-implemented method" and "computer instructions causing a computer to execute the following..." or similar, to better comply with 35 USC 101 and MPEP 2106, Computer Related Inventions. Appropriate correction is required.

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter: the prior art is replete with metabolic flux analysis; and the closest prior art is Fu et al. (US 2004/0033975 A1), but Fu et al. particularly utilize a *least squares* approach (see pg. 38, Example 1).

3. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

4. This application is in condition for allowance except for the following formal matters:

See above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
